

HSE POLICY

1. Practice best standards of safety, health, welfare and environment in accordance with the requirements of Directorate of Mines Safety (OMR 1984) and other relevant statutory provisions as well as approved codes of practices.
2. Maintain safe and healthy work places, safe systems and methods of work and ensure safe operations of all industrial plants and equipment to protect company personnel, contractor personnel and other public from work hazards at SELAN's work centres.
3. Equip company personnel with information, instructions, training and supervision needed for safe, quality and productive work and develop safety awareness.
4. Make staff aware of their individual responsibility to take all care of health and safety of themselves and others who may be affected by their acts and omissions at work place.
5. Protect the environment, prevent pollution, conserve natural resources and comply all environmental laws during oil and gas operations.
6. Pursue HSE policy through company strategies and action plans through management commitment and through individual contribution of all employees and contractor supported by education and training.
7. All company personnel shall be alert, equipped and ready to respond to all emergencies and avoid accidents.
